ACTION FOR • THESSALY •

Following the devastating floods that hit the Thessaly region in Greece at the beginning of September, many schools were heavily damaged and are lacking infrastructure, including electronic equipment. Pupils were not always able to return to their familiar school environment and classes started under extremely difficult conditions.

We, the parents and pupils of the Greek classes of the Brussels I – Berkendael European School, feel the need to contribute to the Thessaly pupils and teachers' returning to normality. To this end, we are raising money for the purchase of logistics and IT equipment.

We will implement the action in cooperation with the Thessaly Regional Office for Educational Planning.

Please consider supporting the action by giving your gift to the following account:

ACT FOR THESSALY

In parallel, and in cooperation with the teachers, we will organise other solidarity actions (collection of books for school libraries, school twinning programmes, etc.).
